DETAILED ACTION

Allowable Subject Matter

1. Claim 6 is allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 6 are allowable over the prior art of record because none of the prior art of record teaches the combined claimed elements as set forth in the claim 6.

None of the prior art of record teaches or fairly suggests that image processing method for alignment or tilt series using sole image that candidate markers are projected basis of probability parameter; applying a fitting algorithm to determined set of parallel straight lines or very elongate ellipses best fitting the candidate markers in the sole image to identify a third subset of candidate marker and aligning the images in the tilt series on the basis of the third subset of identified candidate markers, and together with combination of other claimed elements as set forth in the independent claims 1 and 6. Therefore, the claims 1 and 6 are over the prior art of records.

Claims 2-5 and 7-9 are allowed because they are depended on independent claims 1.

Any comments considered necessary by applicant must be submitted no later than payment of the issue fee and, to avoid processing delay, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance."
